Profile

I am a student in Computer Engineering at Centro Universitario de Ciencias Exactas e Ingenierías; I am passionate about technology, committed to continuous improvement both personally and professionally, always seeking to acquire new knowledge and skills that will allow me to successfully face any challenges. I am dedicated to constant learning and process improvement through collaboration, with strong problem-solving skills. I adapt quickly to new environments and consider myself someone who understands and learns things quickly.

I have knowledge of technology and programming languages such as Python, JavaScript, HTML and CSS, Visual Studio Code, and Git.

Experience

2018 — **Family Stationery** — Assistant
Guadalajara, Jalisco

I collaborated in the binding of theses and academic documents, ensuring accuracy and quality in the final finish. I developed skills in order management and material administration, contributing to the efficient flow of the business. I also assisted in general office tasks, such as printing and binding documents.

2024 – Present — **Radio CUCEI** — Social Service
Guadalajara, Jalisco

I collaborate in the production and streaming of programs through OBS, broadcasting on Facebook, YouTube, and Twitch. I am responsible for configuring and managing broadcasting equipment, software, scenes, and video and audio sources to ensure smooth and uninterrupted broadcasts.

Education

2018-2021 — **Preparatoria Regional de Ameca, UdG**

2022-Present — **Centro Universitario de Ciencias Exactas e Ingenierías** — Computer Engineering
